Project Kick-off Meeting

Convened in Istanbul, Turkey

Kick-off Meeting of the Project titled Interactive Educational Material for Pediatric Bone Marrow Transplantation Nurses convened in Istanbul, Turkey on 14 December 2010. Representatives of the Project partners as well as guests invited by Hemosoft (Project Coordinator - P1) attended the Meeting.

The meeting was inaugurated by Hemosoft, Project Coordinator (P1)'s project development team. Members of Hemosoft's project development team introduced themselves, made a presentation on Hemosoft's company profile, talked about previous Leonardo da Vinci Project experience of Hemosoft and thanked all partners for taking part in this very important project. All partners then introduced themselves and made presentations about their respective organizations. This was followed by further presentations by the Hemosoft team, Hacettepe University (P2) Project Manager and the guests from the Education, Audiovisual and Culture Executive Agency (EACEA). It was particularly beneficial to have the EACEA observers among the participants of the Meeting as they provided invaluable information about the administrative and financial aspects of the project and answered questions raised by other participants. Discussions on several important issues were held among the partners during the presentations and discussion sessions.
